and local institutions, economic operators and
student associations**

EDC of Verona

Employment challenges and freedom of movement within
the European Union: between stress tests and new
perspectives

18 March 2022

Final Report

Conferenza
sul **futuro**
dell'**Europa**

Short Description of the Event

Title: Employment challenges and freedom of movement within the European Union: between stress tests and new perspectives

Date : March 18, 2022

- **Name of the EDC** EDC of Verona <https://cde.univr.it/>
- **Format used and location:**
Zoom Platform
University of Verona - Department of Law- C. Montanari 9 – 37122 Verona
- **Subject of the event and main objectives:**
- The initiative has been structured as a debate open to any interested member of the public, with the attendance of some Members of the European Parliament and University Professors in order to reflect with representatives of social movements, student associations and economic operators on the main issues which will concern the employment policy, as it has been the focus of the discussion that took place during the Conference on the future of Europe, dealing particularly with social protection and social safety, a taxation for a fairer and more inclusive economy, economic recovery, social justice and the pattern between young people and employment.
- The meeting also aimed to explore and develop, through an open dialogue, some proposals regarding freedom of movement, social justice and employment. These topics have already emerged during the previous seminars, which were mainly addressed to young people (students and students associations) and were organized by the CDE of Verona as part of the 2021 network project of Italian EDCs "The Conference on the Future of Europe. A New Momentum for European Democracy".
- **Programme** <https://www.dsq.univr.it/documenti/Iniziativa/dall/dall408918.pdf>
- **Main stakeholders:.**
- **Economic operators**
- **Young University Students**

Overall assessment (strengths and weaknesses noted):

A sure strength point of the initiative can be found in an extensive students involvement; Another positive aspect of the initiative was the active interaction between the students and the Rapporteurs. Indeed the active dialogue could let emerge all the different points of view and let the speakers understand each other and have a profitable comparison, consistently with the objective of the Conference.

Additionally, the interests showed by the economic operators in participating to this and to the other initiatives.

Furthermore, widespread network of dissemination of the initiative helped to publicize the event.

Comprehensively, the event was met with an high degree of satisfaction related to the organization, the quality of the interventions and the topics covered.
